

**RFP 21-07**  
**Addendum 4**

No questions were received for addendum 4, however one modification will be made to the RFP.

For the POTS lines: POTS lines are no longer a requirement for the RFP. If a provider is unable to provide POTS lines, this is no longer a disqualifier.

After further discussions with key stakeholders, POTS lines are no longer considered a critical component and are no longer a crucial part of the RFP.
