St. Johns County Emergency Management

St. Johns County Emergency Management is actively monitoring Hurricane Dorian for potential local impacts that could occur as early as this weekend.

Emergency Management is encouraging residents to evaluate preparedness and response plans, know evacuation routes and zones, assemble supply kits, and prepare homes for potential tropical storm or hurricane weather events.

Additionally, community members who have identified a need for sand bags may begin purchasing them from local hardware and home improvement stores. St. Johns County will also make available supplemental sand bag services, but supplies may be limited and are not guaranteed.

The Emergency Operations Center will be providing Hurricane Dorian updates through the weekend at <a href="www.sjcemergencymanagement.org">www.sjcemergencymanagement.org</a> and <a href="www.sjcemergencymanagement.org">www.sjcemergencymanagement.org</a> and <a href="www.sjcemergencymanagement.org">www.sjcemergencymanagement.org</a> and <a href="www.sjcemergencymanagement.org">www.sjcemergencymanagement.org</a> and <a href="www.weather.gov/jax">www.weather.gov/jax</a>. Statement from Mayor Undine C. George Concerning the Third District Court of Appeals' Rejection of Coral Gables' Styrofoam Ban

Ordinances 19-03 and 19-04 Go Green SAB Statement from Mayor Undine C. George concerning the third district court of appeals' rejection of Coral Galbles' Styrofoam ban

In response to the Third District Court of Appeals' rejection of Coral Gables' Styrofoam ban, Mayor Undine C. George released a statement: "I don't believe the appellate decision reflects the majority opinion of FI communities. Even our governor has expressed strong support for local communities' right to regulate Styrofoam and single use plastics; we are the ones who see and feel their impact. Hopefully local businesses will listen to the voice of the people and transition away from Styrofoam and single use plastics. Consumers want to patronize businesses who share their desire to protect our environment from harmful pollutants."

#### **FAT**

It's that time when city and county elected officials throughout Florida do a public review of their proposed budget for the next fiscal year, 2020, which will begin October 1, 2019, and end September 30, 2020. Seemingly eternal to the annual review is the demand by some residents that local governments trim the "fat" from their budget and thereby lower taxes. A worthy goal and yet: What's the definition of "fat"?....

Don't miss this opportunity to add to your book collection, and get ready to do some serious reading! The Friends of Anastasia Island Branch Library (FAIBL) will be holding their **Fall Two-Day Book Sale** on **Friday, October 4 and Saturday, October 5, 2019** at the library at **124 Seagrove Main Street, St. Augustine Beach.** Dates and times are Friday, October 4, 10:00 AM - 6:00 PM, and Saturday, October 5, 10:00 AM - 5:00 PM. As always, there will be thousands of items available for purchase. Books include like-new hardcover bestsellers with dust jackets at \$1 each. Most other books are priced at \$1 or less each, including trade (larger format) paperbacks. A selection of childrens' and teens' books will be available. Music CDs are \$1 and DVDs are \$2. Vintage Images of the Alligator Farm

## The Alligator Farm and the Burning Spring

Florida and alligators are a combination almost as well-known as ham and eggs. When the startled Spaniards first beheld the giant reptiles, they gave them their name-"El Lagarto," the lizard. As Florida began to blossom as a haven for winter-weary northerners, nearly everyone clamored to see (1) an orange grove, and (2) a real live alligator. Some people, once across the state line, even expressed surprise that the big saurians were not lolling along every roadside. No one can quite explain the charm of the alligator......
