

Mold and Moisture Information from the Florida Department of Health

If you have questions about indoor mold, how it affects human health, and ways in which you can prevent or remove it, the Florida Department of Health has information to address some of the most common questions and concerns. Click on the document file below titled "Mold and Moisture" to access this information, which is also on the internet at:

<http://www.floridahealth.gov/environmental-health/mold/index.html>

You can also call the Florida Department of Health at 850-245-4288 or send an email with questions or concerns to: [ph toxicology \[at\] flhealth.gov](mailto:ph toxicology@flhealth.gov)

If a mold issue involves apartments, hotels, and/or motels, complaints can be submitted online to the Florida Department of Business and Professional Regulations at:
